

Table 2 – Post-Experimental Attitudes in the Liberal and Conservative Conditions by Ideology

Ideology	Congressional Approval	Experimental Condition		
		Control	Liberal	Conservative
Liberal	Approve	34%	33%	41%
	Disapprove	66	67	59
	γ		0.00 (p=1.00)	0.09 (p=0.50)
Moderate	Approve	57%	48%	46%
	Disapprove	43	52	54
	γ		-0.26 (p=0.08)	-0.27 (p=0.06)
Conservative	Approve	66%	56%	66%
	Disapprove	34	44	34
	γ		-0.26 (p=0.02)	-0.04 (p=0.73)
Total N		207	191	220

Gammas and corresponding p-values are based on each experimental condition compared to the control group, using the four-way approval variable.
